

School and Homework

Digraph th (th as in math)

_____ 's children are in school. One daughter is 10 years old and in fifth grade. She loves math. The other daughter is 11 years old and in sixth grade. She loves reading and writing. They both have lots of homework. They do their homework at 4 PM.

_____ helps them with their homework every night. This is a fun time for all three of them.

Word Study: Students underline each "th"
